

RESULTS OF CHRISTIAN EDUCATION

Abraham Lincoln said, "*The philosophy of the classroom in one generation will be the philosophy of government in the next.*" We are currently enduring a government whose philosophy was molded, at least in part, by those involved in their education.

The results of true Christian education will be a product that glorifies God--young people who love Him wholeheartedly, who are able to live for Him, and who are equipped to serve Him in any vocation.

Christian parents who accept the responsibility and who are assisted by Biblical ministries that understand the true reasons for and requirements of Christian education will be able, by the grace of God, to produce a generation of students with Biblical values, goals, philosophy, and purpose--a generation of Godly servants!
